

# Workshop

# Sustainability Framework & ESG Reporting

2 Days Workshop

1<sup>st</sup> Day

Module

## Objective:

To assist in developing sustainable in management and operations in companies with international sustainability standard.

## Overview:

This Workshop begins by presenting the concept of sustainability in GPM. We cover the potential of GPM to address sustainability issues and discuss the relationship between the two. We look at case studies that show how companies and organizations practice GPM and how practitioners are achieving greater sustainability in their projects and beyond.

## Learning Outcome:

1. Adapt sustainability tools and goals: P5 Sustainability model and UN Sustainable Development Goals (SDGs)
2. Assess a Project Excellence Baseline (PEB) in a customized way.
3. Benchmark company or organization regarding project success and operations process
4. Identify issues and impediments to integrating sustainability

Dates : Time : 9am to 5pm

Dr. Norsaidatul Akmar  
Mazlan  
GPMb,RCA.,HRDF Trainer
