

FAQ for Executive Master in Applied Sustainable Practice.

1. What is the duration of the Executive Master program?
 - The Executive Master in Applied Sustainable Practice is typically structured in three phases, Phase 1-3 and each lasting for 10 weeks. The entire program spans from mid-June to mid-December, totaling approximately 30 weeks. Learners can finish the class earlier in each phase, as it depends on their registration for topics based on the availability of trainers and coaches shown in the Learning Management System (LMS). Trainers and coaches will make their availability known in the LMS system. Learners sign up for trainers and coaches classes, as per their choices.
2. What are the learning outcomes of the program?
 - The learning outcomes of the Executive Master program include developing a deep understanding of sustainability principles, acquiring the skills to implement sustainable practices in various contexts, enhancing leadership capabilities for driving sustainable change, and creating comprehensive strategies for sustainable development.
3. Can I pursue the Executive Master while working full-time?
 - Yes, the Executive Master program is designed to accommodate working professionals. The flexibility of the program allows you to balance your studies with your full-time work commitments.
4. Is the program delivered online or in-person?
 - The Executive Master program is typically delivered through a combination of online learning, online coaching, and one-on-one coaching sessions. This allows for greater accessibility and convenience. For international students, depending on your location and country residence, we will provide suitable coaches if they are available for physical coaching in your country. If not, coaching will be online.
5. What are the admission requirements for the Executive Master?
 - The admission requirements are based on work experience. Applicants are expected to have minimum basic educational certificates (example SPM) and 5 years working experience. For Diploma or Bachelor Degree, minimum is one year experience. An interview may be conducted (if necessary) as part of the application process.
6. How much does the Executive Master program cost?

- The program fees for the Executive Master in Applied Sustainable Practice can vary depending on the applicant's nationality and location. It is recommended to consult the program coordinator or the marketing agent offering the program for accurate and up-to-date information regarding the fees.
7. Can I choose electives based on my specific interests?
 - The availability of electives may vary depending on the program structure and institution. Our Executive Master programs offer elective courses or modules that allow participants to specialize in specific areas of sustainability based on their interests and career goals.
 8. Are there any networking opportunities available during the program?
 - Our Executive Master programs provide networking opportunities to connect with fellow participants, alumni, industry professionals, and experts in the field of sustainable practice. These opportunities include the coaching sessions, networking events, conferences, workshops, and guest speaker sessions.
 9. Will I receive a certificate upon completion of the Executive Master?
 - Yes, upon successful completion of the Executive Master program, participants are typically awarded a certificate of completion and an Upskill Certificate recognizing their achievement and expertise in applied sustainable practice. For those who complete Phase 1, you can qualify to receive Advanced Certificate in Applied Sustainable Practice from GPM Global (USA). For completing Phase 2, you will qualify to receive Professional Certificate in Applied Sustainable Practice from GPM Global (USA). If you complete your project paper submission in Phase 3 and did your presentation, then you will graduate and get the Executive Master in Applied Sustainable Practice.
 10. How can the Executive Master help advance my career in sustainable practices?
 - The Executive Master in Applied Sustainable Practice equips you with advanced knowledge, skills, and strategies to drive sustainable change within organizations. It enhances your understanding of sustainability principles and their practical application, thereby opening up career opportunities in sustainability management, consulting, policy-making, and other related fields.
 11. What is the format of the assessments and assignments in the Executive Master program?
 - The format of assessments and assignments in the Executive Master program include individual or group projects, case studies, presentations, or a combination of these. The program may also include practical application of sustainable practices through real-world projects or internships.
 12. How does the Executive Master program prepare me for leadership roles in sustainable practices?
 - The Executive Master program is designed to equip participants with the knowledge, skills, and competencies necessary for leadership roles in sustainable practices. It provides a comprehensive understanding of sustainability principles, strategies, and frameworks, along with practical tools for implementing sustainable solutions. The program may focus on areas such as sustainable business models, environmental

stewardship, social responsibility, and ethical decision-making. It also emphasizes leadership development, communication skills, and the ability to drive change within organizations.

13. Are there any international study trips or experiential learning opportunities included?
 - Executive Master programs may offer international study trips or experiential learning opportunities as part of the curriculum. These experiences can provide valuable insights into sustainable practices in different contexts and cultures. They may involve visiting sustainability-focused organizations, participating in fieldwork, attending conferences, or engaging in collaborative projects with international partners. The availability of such opportunities can vary, so it's recommended to check the program details for specific information. This can only be arranged under sponsorship programs.
14. What support services are available for Executive Master students, such as career counselling or alumni network?
 - Executive Master Programs provide support services for learners, which can include career counselling, professional development workshops, access to job boards, networking events, and an alumni network. These services aim to assist learners on the job opportunities. These services are designed to help learners leverage their education and experience to advance their careers in the field of sustainable practice. It's advisable to inquire with the specific program you are interested in to understand the support services they provide.
15. What are the potential career paths or job opportunities after completing the Executive Master program?
 - The Executive Master program in Applied Sustainable Practice can open up a variety of career paths and job opportunities. Graduates may pursue leadership roles in sustainability departments within organizations, work as sustainability consultants or advisors, become sustainability managers or directors, or engage in policy development and advocacy related to sustainable practices. Other potential career paths include working in renewable energy, green building, sustainable supply chain management, environmental consulting, or social entrepreneurship. The specific career paths will depend on individual interests, prior experience, and specialization within the program.
